Alameda Daily Argus

ESTABLISHED 1877.

Reaches more homes in Alameda than all other Alameda county papers combined. Its look of thrift is backed by the support of Alameda's best citizens. The only effective means of reaching this big class of discriminating buyers is through the Argus. This is a point for the careful advertiser.

Office and Pressrooms 2311-2313 Central Avenue, near Park St.

PUBLISHERS and JOB PRINTERS.

On account of the fact that the name

Mutual Label & Lithograph Co.

has frequently proven misleading and confusing, we have concluded to resume our old title:

"Schmidt Lithograph Co."

This adjustment, which takes effect at once, means no change of management, policy or location, but is made simply to facilitate business and remove the erroneous impression caused by the name "Mutual."

HEALD'S

SCHOOL OF MINES *and* ENGINEERING

24 POST STREET, SAN FRANCISCO

CIVIL AND MINING ENGINEERING

This department has been established to meet the demand for thorough instruction in mining and surveying that will be shorter than the university course of four years. The plan adopted, therefore, is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full practical knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes: Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.

The MINING ENGINEERING COURSE includes: Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes: Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluous as to bring it within the time limit and means of the average young man who has to make his own way in the world.

The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-ray closet and a large Laboratory.—*Send for Special Catalogue of this School.*

NIGHT SCHOOL

To accommodate a large class of patrons who are unable to attend the day sessions, evening classes are conducted in all the departments the entire year. All the facilities and advantages of the day sessions are provided for these classes; the same studies, the same methods, the same practical work. The instruction is individual and every attention is given to those whose education has been neglected.

Business Houses needing Bookkeepers, Stenographers, Typewriters, Cashiers, Clerks, Foreign Correspondents, Telegraphers, Electricians, or Clerical Labor of any kind, can be immediately supplied by telephoning.

OCEANIC STEAMSHIP COMPANY'S
A & A LINE
ROUND THE WORLD MAP

NEW TWIN-SCREW STEAMSHIPS

"Sierra" "Sonoma" "Ventura"

6,200 Tons Length, 425 feet
Horse Power, 8,000

The Sister Ships "Sierra," "Sonoma," and "Ventura," have double bottoms, water-tight compartments, two sets of triple expansion engines, developing over 8,000 horse power, and twin screws that will drive the vessel over 17 knots an hour. There are accommodations for over 200 first-class passengers, 100 second class, also accommodations for third-class, and in each class nothing has been left in line that tends to the safety and comfort of travelers. Rooms A and B on the promenade deck and room 15 on the upper deck are *Bridal rooms*. The upper deck cabins are all large size, lighted and ventilated by windows opening on the upper deck. The Dining room is a splendid hall, running clear across the ship, located on the upper deck, away from the kitchen. The ventilation of the steamers is perfect, being provided with forced draft, which keeps them free from the closeness and odors often found on ocean steamers. They are all of good beam and provided with bilge keels.

SECOND DECK PLAN. The second cabin rooms are arranged in a line all forward from the stern. The second steamer sails every 21 days to Sydney via Hawaii, Samoa and New Zealand.

THE STEAMSHIP "ALAMIDA," in the local service, built by the local shipyard and designed by the Risdon Iron Works in San Francisco, is proving more popular than ever, and makes a quick passage from Honolulu to San Francisco, intermediate with those of the through steamers, making a Honolulu service every ten days.

THE STEAMSHIP "MARIPOSA," designed by the Risdon Iron Works in San Francisco, is proving more popular than ever, and makes a quick passage from Honolulu to San Francisco, intermediate with those of the through steamers, making a Honolulu service every ten days.
